

1 x Tunable white LED array with 32mm $\ensuremath{\texttt{g}}$ Gaggione colour-mixing lens per module

Modular, 3D flexible LED linear lighting system

Product description:

For use in interior lighting applications where the building surfaces are non linear with curved profiles $\label{eq:surface}$

Each module - 4x Luxeon Z, Z ES, CZ or Rubix LEDs, with a highly efficient colourblending 32 mm Gaggione lens

Up to 4.5 Watts per 100mm module. Up to 48 V DC supply

Flexible in 3 dimensions - articulated ball-joint system between modules

LED pitch is maintained between the modules

Side, back and end power feed and connector options allow for continuous lighting with no dark areas between fixtures. 16 Amp IP20 connectors join fixtures together on-site

Integral LV constant current driver or remote Eldoled 4 Channel DMX driver

Remote DMX / DALI controller can be located up to 50 mtrs from the LED system

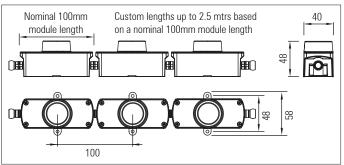

Satin black, satin white or any RAL paint colour finish

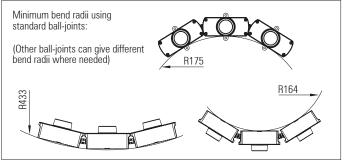

Custom lengths based on a 100 mm module up to 2.5 mtrs

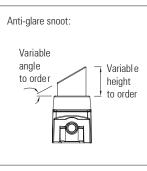

Various mounting options and bracket types are available including custom solutions

3D LED Flex 40 Tunable white IP20 1 x Tunable white LED array with 32mm ø colour-mixing lens per module

Modular, 3D flexible LED linear lighting system

Up to 5,500 Lumens per mtr

Adjustable angle mounting bracketry for 3D LED Flex 40 IP20 1 x RGBW LED array with 32mm diameter lens per module

The 3D LED Flex 40 system is flexible in 3 dimensions, which allows it to follow curved building contours. Once they have been fixed to the building surface, adjustable angle brackets allow the modules to be rotated around the major axis, so that the light output can be aimed precisely.

The angle of the modules can be adjusted by hand easily on-site. The friction ball-joint system keeps the modules correctly positioned. There is also a lockable option, which allows each module to be locked in place using an Allen key once it is correctly positioned.

A standard height version and a custom height version are available.

Custom options are also available.

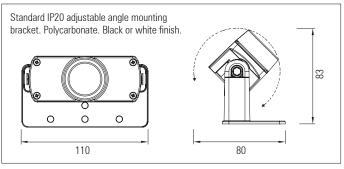

The standard height bracket is made from polycarbonate and is available in black or white.

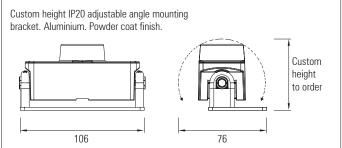

The custom-height bracket is made from aluminium with a powder coat finish which is available in satin black, satin white or any RAL paint colour finish.
