

Euclid 80

RGBW LED linear lighting system IP 65

Euclid 80 RGBW IP65 with lenses and honeycomb louvre

High power, IP 65 rated, RGBW LED linear lighting system

Product description:

Exterior wall grazing and wall washing applications

Integral mains voltage AC to DC constant current drivers. 230 V AC input

Incorporates a highly efficient colour-blending lens system

RGBW, RGB, RGBA, Dynamic-white or white LED options available

Satin black, satin white or any RAL paint colour finish

Custom lengths based on a 100 mm module up to 2 mtrs

Various mounting options and bracket types are available

16 Amp IP67 connectors join strips together on-site

Various dimming options available: 1 - 10, DALI, DMX

Honeycomb louvre for glare control

Side, back and end power feed options allow continuous lighting without dark areas - LED pitch is maintained between the individual luminaires
