

Micro egg pendant range

Interior optical LED pendant system

The micro egg pendant is designed for use in retail, hospitality and residential projects.

A range of TIR optics allow for highly controllable directional accent lighting effects.

The customisable LED light engine can be run at up to 2W providing up to 250 Lumens.

Dim to warm and very low colour temperature LED options are available.

Any anodized or RAL powder coat finish and a range of decorative cable options are available.

Pendants can be suspended from either Radiant's LV Micro Track (see previous pages) or an individual surface mount base can be used.

The light output contains very little heat or UV making it ideal for the illumination of sensitive materials.

Up to 250 Lumens per pendant

Macro, Micro and Nano Ribbed Pendants

Interior optical LED pendant system

The Ribbed Pendant range incorporates the same optics and LV DC to DC dimmable drivers as the Micro Track and Aleta spotlight range so they can be used together in the same projects.

3 diameters and custom lengths with any anodized or powder coat colour finish.

A range of decorative cables are available.

Designed for use in hospitality, retail, residential and architectural lighting applications.
